

## CHAIR'S REPORT 2021

It seems we are in a "Groundhog Day" loop with Covid and related restrictions still adversely affecting the normal function of your Group.

The year 2021 much like 2020 seems to have been and gone very quickly.

Another difficult year weather wise for our bees and very few face to face group meetings, I hope we can "resume normal service" soon.

For those of you new to our group this lack of meetings means less chance to meet fellow beekeepers both socially and to ask questions of our more experienced members. This facility still exists, either via our Facebook page or by direct contact with your committee.

Please do not hesitate to contact us if you feel you need help or advice.

A big thank you to all our committee, especially

Marcus for keeping us informed

Martin for organising a very successful Events year and Christmas meal

Tim for both being our group purchasing guru and allowing our Beer & Pasty event on his lawn

Adam for managing the Group Website

Wishing you all a belated Happy and Covid free 2022

Geoff Hodgson
